

16. (Twice amended) A composition as claimed in claim 14, further comprising a scrubbing agent that includes silica or pumice.

17. (Once amended) A composition as claimed in claim 14 further comprising safflower oil, lipocol, glycerin and propylene glycol.

18. (Three times amended) A composition comprising:

- (a) water;
- (b) a moisturizing and non-oily base element; and
- (c) silica or pumice;

wherein the base element is a non-oily element for retaining the silica or pumice in a form to effectively act as an exfoliating or scrubbing agent on skin.
